

Litestream Underwater Lights

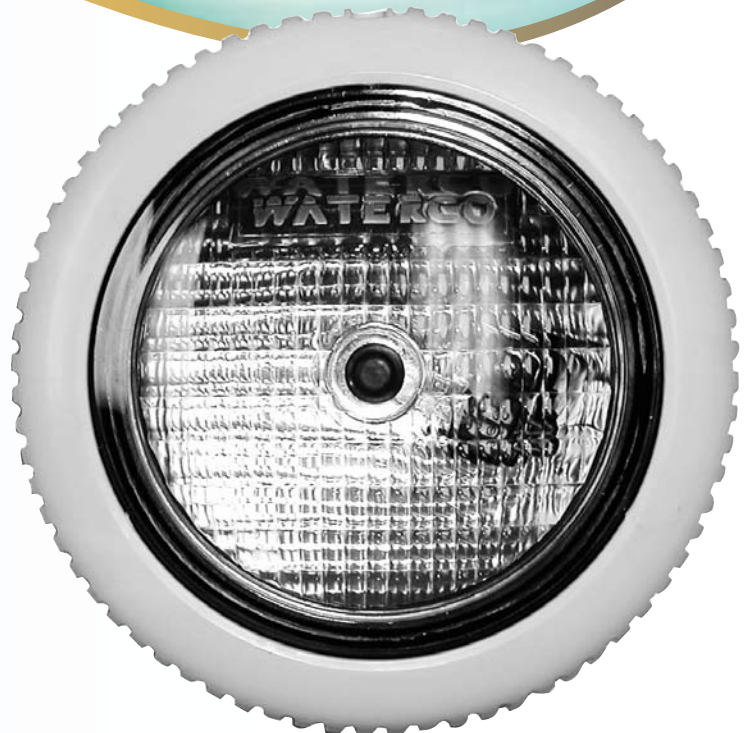

For Water with Sheer Brilliance

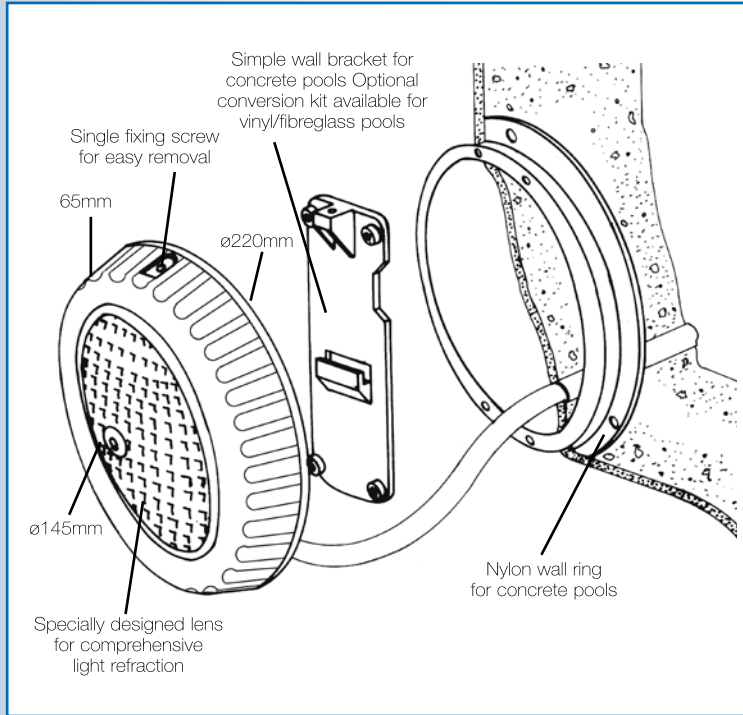

Litestream Underwater Lights are a perfect accessory for your pool, lighting the way for your family and friends and adding aesthetic value to your pool's surroundings.

Litestream's 100 watt globe lights up the entire pool via a specially designed lens which refracts the light without any discernible loss of brightness.

With Litestream Underwater Lights you can enjoy your pool 24 hours a day.

Litestream Underwater Lights

Easy to maintain

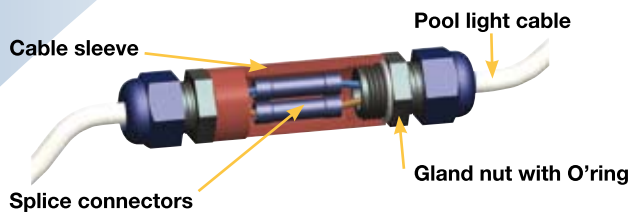

Maintaining your Litestream Underwater Light is simply a matter of occasionally changing the globe. To make this job as trouble free as possible, the lights have been designed so that they can be easily removed from the water when the globe needs to be replaced.

Easy Replacement

Your pool's existing light can be easily replaced with the use of the Litestream's Retrofit Kit which consists of a Retrofit Connector and an Universal Pool Light Adaptor.

Retrofit Connector (IP68)

Simply crimp both connections with the splice connectors, slide the cable sleeve over the connection and hand tighten the gland nuts.

Warranty

Litestream Underwater Lights are covered by a 12 month warranty, excluding the light globe.

Coloured Lenses

The Litestream Underwater Lights come with an additional blue screw-on lens.

Red and green lenses are also available for separate purchase.

Electrical Specifications

Input Voltage 12VAC

Input Power 100W
